### **DETAILED ACTION**

This Office action is in response to the amendment filed October 27, 2003. The supplemental amendment of November 3, 2003 has not been considered because the amendment is not signed. The previous rejection of the claims under 35 USC 112 and 103(a) are withdrawn in view of the cancellation of claims 1-19.

#### ***Specification***

1. The amendment is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the amendment to the abstract; paragraphs 3, 12, 13, 14, 15, 29, 36 and Table 6..

Applicant is required to cancel the new matter in the reply to this Office Action.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original filed specification does not

support the following limitations: (claim 20) "about 20 to about 500ppm"; "about 10 to about 60% by weight of water"; about 30 to about 80% by weight of a surfactant " and " about 0 to about 30% by weight of a hydrocarbon solvent; (claim 21) "from about 20 to about 50%"; (claim 22) "from about 40 to about 70%"; (claim 23) "from about 10 to about 20%"; (claim 27) "from about 999,500 to about 999,980 ppm; "from about 0 to 150ppm by weight of solvent"; (claim 28) "from about 999,750 to about 999,980ppm"; (claim 29) kerosene is used as a solvent not as a fuel; (claim 30) "from about 50 to about 150ppm"; (claim 31) "from about 20 to about 40 ppm"; (claim 33) "from about 20 to about 85ppm".

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 28-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent support in claim 27 for "the fuel additive composition".

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1714

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
